Pipettes come in several designs for various purposes with differing levels of, from single piece glass pipettes to more complex adjustable or electronic pipettes.. Pipette Calibration For pipette calibration, Sartorius offers fast, user-friendly and portable solutions.. The sure-fit handle, light springs and patented LTS™ LiteTouch™ System ensure smooth, comfortable operation and significantly reduce the risk of repetitive strain injuries.. Rainin's Pipet-Lite™ XLS+ manual pipettes blend cutting-edge engineering and innovation to deliver highly reproducible results with exceptional comfort.

We offer a wide selection of pipettes • Manual pipette • Electronic pipette • Multichannel pipette and single channel pipette • BioClean pipette tips • And expert pipette services that work together as a complete pipetting solution – Pipetting 360° Top quality, innovative design and state-of-the-art production result in superior pipette products with years of reliable operation.. Gamma or electron (e-beam) irradiation can be used to sterilize the tips, eliminating the need of autoclaving.. In addition, METTLER TOLEDO's unique Good Pipetting Practice™ (GPP™) is a risk-based, comprehensive and systematic approach to maximizing pipetting accuracy and repeatability.. It shows that Rainin TerraRack is an easy recyclable and low environmental impact tip packaging.. Given the reduced need to autoclave and an increased concern about the lasting environmental impact of plastic, the time to develop greener tip rack packaging solutions is now.

Not only is every E4 XLS+ function highly customizable, multiple protocols can be stored on board for later use.

It presents findings from two sources: first, a randomized shipping experiment involving multiple packages of pipettes shipped to multiple locations, and second, a case study drawn from a major-account customer that ships thousands of pipettes to Rainin's Massachusetts facility for calibration.. What's more, GLP data, such as service records, cycles and status data is completely tamper proof.. Tip shaft options include low-force LTS for improved ergonomics, as well as universal-fit.. METTLER TOLEDO Rainin is the pioneer of high purity 'BioClean' tips, creating a range of super-clean tips which are certified to be free of biological contaminants.. 5–10 µl adjustable pipette; 7) Squeezable transfer pipettes; 8) Digital adjustable pipette; 9) Light-guided pipetting system A pipette (sometimes spelled pipet) is a laboratory tool commonly used in, and to transport a measured volume of liquid, often as a.. Most Comprehensive Range of Pipette Service & Calibration Options Anachem service & calibration options are available on an as required flexible basis.. Our equipment provides the best features for accurate More Rainin Pipette Calibration Tool videos. e10c415e6f
